STORM DOOR INSTALLATION
SYSTEM ON THE MARKET

**ADD INSTANT BEAUTY AND ENERGY
EFFICIENCY TO YOUR ENTRANCEWAY**

ENERGY-EFFICIENT. RELIABLE. BEAUTIFUL. ANDERSEN®

Andersen offers a full line of storm doors that add instant beauty to your home and improve the efficiency of your entryway. Designed to deliver performance, convenience and easy installation, our storm doors offer the peace of mind you've come to expect from Andersen. Along with our selection of EMCO® storm doors, Andersen has the styles, options and features to fit your needs.

CONVENIENCE

These innovative features make Andersen® storm doors easy to select, easy to operate and easy to enjoy.

QUICK-RELEASE GLASS/INSECT SCREEN CHANGE SYSTEM

Change your full glass panel to your full insect screen in seconds with our patented quick glass/insect screen system. See page 8.

SLIDEAWAY® RETRACTABLE INSECT SCREEN

Enjoy convenient anytime ventilation with a retractable insect screen that hides in the top of the door frame when not in use. See pages 10, 11, 12 and 13.

KEYABLE LOCKS

Match your Andersen® storm door lock to a **Schlage®** or **Kwikset®** entry door lock to eliminate the need for an extra key. Rekeying should be done by a professional locksmith. Please call the Solution Center Hotline at 800-933-3626. An additional purchase may be required.

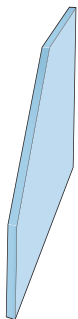

PUSH-BUTTON BOTTOM CLOSER

Tap the button with your toe to hold the door open and keep your hands free. Available on all Andersen storm doors.

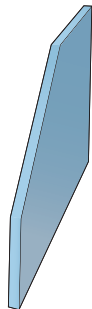

PERFORMANCE

An Andersen or EMCO storm door can improve the energy efficiency of your entranceway.

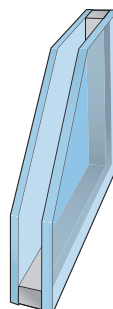

CLEAR GLASS

Tempered glass is **5x stronger** than regular glass. Also available in decorative patterns on select models.

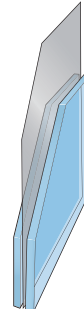

LOW-E CLEAR GLASS

Low-E glass reflects radiant heat back toward the home for **29% more energy efficiency** than clear glass.* Available on select models.

INSULATING GLASS

Dual-pane insulating glass offers **enhanced energy performance**. Only available on Contemporary Deluxe Fullview interchangeable door. Low-E Insulating glass is also available. See page 8.

LAMINATED GLASS

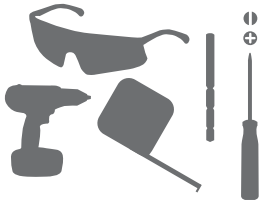

Permanently sealed for added security, laminated glass offers **impact resistance and increased UV protection** to help resist fading. Only available on Contemporary Deluxe Fullview fixed door. See page 8.

EASY, TIME-SAVING INSTALLATION SYSTEMS

Andersen® storm doors featuring Rapid Install systems make installation easy by eliminating the need to cut and reducing the amount of tools and assembly time required. We've made it easier than ever to enjoy the benefits of a new storm door. Look for the icon indicating the installation system when reviewing storm door options on pages 6–17.

RAPID INSTALL 1

- Fastest and easiest storm door to install
- Preassembled for installation in about 1 hour
- No cutting, minimal drilling and virtually no measuring required
- Handle holes are predrilled
- Minimal tools required

RAPID INSTALL 2

- Prepped for easier installation
- Installs in about 2 hours
- No cutting and virtually no measuring required
- Universal handing design allows either left- or right-hand installation
- Only basic tools required*

STANDARD INSTALL

- Requires additional steps when compared to Rapid Install systems
- Universal handing design allows either left- or right-hand installation
- Basic tools required*

*Actual tools required will vary between storm door models. See installation guide for details.

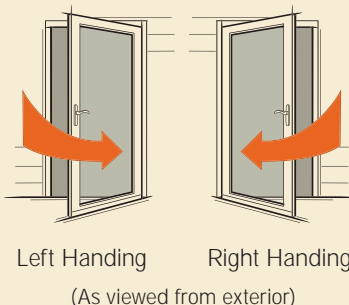

To learn more and find helpful installation videos, visit stormdoorcentral.com

PREASSEMBLED VS. PREPPED

RAPID INSTALL 1

PREASSEMBLED STORM DOORS

All necessary components are precut and attached, and handle holes are predrilled. Your door is ready to secure into the opening in minutes. Left- or right-hand operation will need to be determined when ordering.

RAPID INSTALL 2

PREPPED STORM DOORS

Components are pre-cut and installation accessories are provided. Assembly of components is required. Left- or right-hand operation is determined during installation.

CHOOSING YOUR STORM DOOR IS AS EASY AS 1-2-3

1

MEASURE YOUR DOORWAY

Andersen® and EMCO® storm doors simply attach to the exterior trim of an existing entry door. Find the door size you need by following these easy steps or by viewing our how-to video at stormdoorcentral.com/measure.

HEIGHT

Measure for height (H) from the sill to the underside of the exterior trim at the top of the door.

H _____
Record your door height.

WIDTH

Measure the width at the top (W1), center (W2) and bottom (W3) of the door opening. Use the shortest measurement when ordering if they vary.

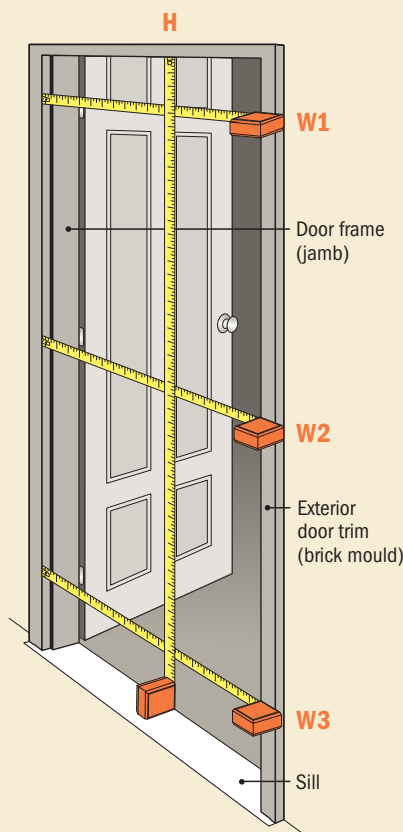

W1 _____ W2 _____ W3 _____
Record your door width.

For double doors, order two doors and double-door kit.

SELECT DOOR SIZE

Use the sizing charts below to select a door size. Be sure to verify space requirements for the door you select.

Record the door size you need.

VERIFY SPACE REQUIREMENTS

Verify the minimum space requirements on your existing door frame to make sure that your new storm door will fit.

DIMENSION A

- Minimum of ¾" (1.91cm) required for all storm doors except for the Economy Series, Traditional Deluxe Store In Door and Contemporary Deluxe Fixed Fullview, which require 1" (2.54 cm)

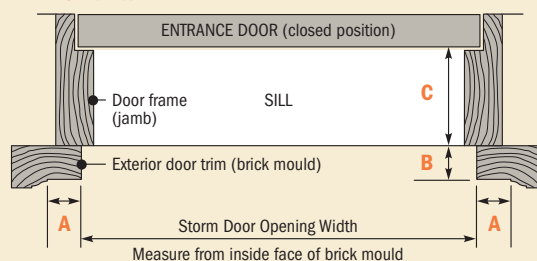

DIMENSION B

- Minimum of 1" (2.54 cm) required
- For openings less than 1" but greater than ¾", order optional narrow mount kit for proper installation

DIMENSION C

- Minimum of 2 ½" (6.35 cm) required

TOP VIEW

STORM DOOR SIZE CHART

Andersen®

EMCO®

EMCO®

Andersen® and EMCO® doors		
Door Size	Width Range	Height Range
30"	29-7/8" to 30-3/8"	Rapid Install 1 & Standard Install: 80" to 80-7/8" for all door sizes*
32"	31-7/8" to 32-3/8"	
34"	33-7/8" to 34-3/8"	Rapid Install 2: 80" to 81" for all door sizes
36"	35-7/8" to 36-3/8"	

EMCO® Store-In-Door		
Door Size	Width Range	Height Range
30"	30" to 30-3/8"	
32"	32" to 32-3/8"	80" to 80-7/8" for all door sizes
36"	36" to 36-3/8"	

For opening widths outside these ranges, custom doors provide the best fit and installation. Alternatively, for openings up to 1" wider than those listed, an optional Z-bar extender kit is available for purchase.

*84" and 96" heights available on the Andersen® Contemporary Series Fullview Interchangeable door, 36" White; 96" also available in Almond.

Questions about measuring or for more information call 1-800-933-3626 or visit us online at stormdoorcentral.com.

NEED A CUSTOM SIZE?

Custom sizing only available with Clear Glass storm doors.

Custom size ranges for each brand		
Door Size	Width Range	Height Range
Andersen Custom	27-3/4" to 38-3/8"	72" to 84-7/8"
Andersen Custom XL	27-3/4" to 42"	72" to 96"
EMCO Custom	27-3/4" to 38-3/8"	75" to 84-7/8"
EMCO Custom XL	38-1/2" to 42"	79" to 91"

To qualify for Andersen Custom XL sizing, only one of the following conditions must be met:

- Width of opening must exceed 38-3/8" or
- Height of opening must exceed 84-7/8"

Andersen Custom XL must be specified RH or LH. Ask an associate for details. For openings up to 1" wider than those listed, order an optional Z-bar extender kit. Kits are also available for double-door installation for all models and colors.

2

CHOOSE YOUR DOOR STYLE AND VENTILATION OPTIONS

Select from over 30 door styles featuring Full-Lite, $\frac{3}{4}$ Lite or $\frac{1}{2}$ Lite glass, decorative lower panels or grille options. Interchangeable doors provide seasonal ventilation when the insect screen is in place. Self-storing doors offer convenient anytime ventilation.

FULLVIEW FIXED OR INTERCHANGEABLE

FULLVIEW DOORS

Let in the maximum amount of light and air while beautifully framing your entry door.

FULL-LITE SELF-STORING

FULL-LITE DOORS

Let in an abundance of light while also benefiting from convenient anytime ventilation without having to remove a glass panel.

$\frac{3}{4}$ LITE SELF-STORING

$\frac{3}{4}$ LITE

Enhance your entryway by choosing optional grille and decorative lower panel options.

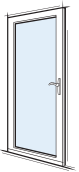

$\frac{1}{2}$ LITE INTERCHANGEABLE OR SELF-STORING

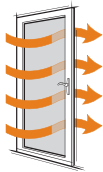

$\frac{1}{2}$ LITE

Traditional styling possible with optional grille and multiple decorative lower panel options.

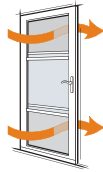

SEASONAL VENTILATION

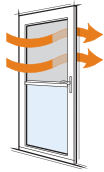

Fullview fixed doors have a non-removable laminated glass panel that offers a weathertight seal and added security all year long without an insect screen option.

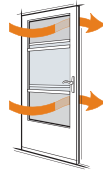

Fullview interchangeable doors allow for the most ventilation with an interchangeable insect screen and glass panel. Carefully store the panel not in use.

Dual vent doors feature one-hand operation with smooth-gliding glass that allows anytime ventilation from the top, bottom or both sections simultaneously.

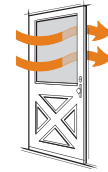

Single vent doors provide anytime ventilation with a retractable insect screen that disappears into the top of the door frame when not in use.

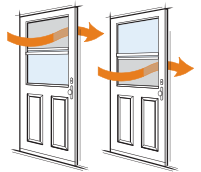

Dual vent doors are easy to operate and allow anytime ventilation from the top, bottom or both sections simultaneously.

Single vent doors provide anytime ventilation with either a retractable insect screen or a permanent screen with glass panels that easily raise or lower.

$\frac{1}{2}$ Lite interchangeable doors provide seasonal ventilation with snap in/out glass and insect screen.

Single vent doors provide anytime ventilation with a retractable insect screen or a permanent insect screen with glass panels that easily raise or lower.

ANYTIME VENTILATION

3

CHOOSE THE LOOK YOU WANT

Choose from available glass, color and hardware offerings based on the style and ventilation option of the door selected. Available options vary by door. For a complete list of features and options by door model, see pages 18–19.

ANDERSEN® FULLVIEW DOORS

STORM DOORS BY DESIGN

The Storm Doors by Design program, with the exclusive features of the Andersen® Fullview Contemporary Series door featured on page 7, gives you unlimited design flexibility with the most frame color, glass design and hardware options. This allows you to create a personalized storm door that fits your home and your needs. Choose from 8 door colors, 13 glass options, 10 hardware options and 10 sweep finishes.
